A Scientific Breakthrough in Weight Loss

At NuVerus, we have rediscovered the wisdom of the ancients and combined it with modern science in order to unlock a state-of-the-art Weight Management System. The NuVerus Weight Management System utilizes Super Foods including Black Seed and Curcumin in a total approach to losing weight, and then maintaining the weight you desire.

- **NuVerus Lean for Pure Protein**
- **NuVerus Pure for Pure Fiber**
- **NuVerus Trim for Water Enhancement**
- **Black Seed and SuperFoods for a Powerful Boost to your Weight Loss**

Pure Protein and Pure Fiber

NuVerus brings new advancements in pure liquid Protein (Lean) and pure liquid Fiber (Pure) with added NuVerus SuperFoods, to deliver a new and powerful system for effective weight loss.

Trim Water Enhancement

When you add NuVerus Trim to your daily water intake, you will drink more water, and naturally suppress your appetite, which leads to faster weight loss.

NuVerus SuperFoods:

Black Seed has remarkable healing and health properties that make it one of the most powerful SuperFoods known to man. NuVerus is the first company to bring the benefits of Black Seed to an effective weight management system. In addition to its vast immune system benefits, Black Seed has a unique ability to enhance weight loss and weight management. This powerful SuperFood will help increase body tone, stimulate metabolism, and promote healthy digestion, all of which will assist you in losing weight and maintaining the weight you desire. Curcumin was found in studies to prevent the maturation of fat cells as well as reduce the inflammation associated with the development of obesity. Cayenne Pepper has been shown to curb appetite, and Green Tea helps give you more energy. Adding Black Seed and other powerful SuperFoods is unique to the NuVerus Weight Management System. This unique and powerful approach to health and weight loss will allow you to achieve the results you are looking for!

Simple to Use

Start in the morning by mixing bottle of 1/2 Lean (protein) with 1/2 bottle Pure (fiber) with 8 ounces of water. The Lean protein gives your body the nutrition it needs. The Pure fiber helps fill-you-up so that you have a satisfied feeling in your stomach. The NuVerus SuperFoods accelerate your weight loss and enhance your health. Plus the taste is delicious! When you implement Lean and Pure into your daily life, you consume fewer calories, thus losing weight effectively. Looking for quick weight loss, repeat the same refreshing and delicious mix again in the evening.

Next add Trim to 6-8 glasses of water each day. Your water is now a delicious and refreshing beverage. The SuperFoods in Trim help curb your appetite, further assisting you in reducing calories and losing weight. (See Added Benefits of each product in specific product sections)

NuVerus Lean

Proteins are amazing molecules. They spark the chemical reactions that form the basis for life, transmit signals in the body, identify and kill foreign invaders, and form the engines that make us move. For every task in a living organism, there is a protein designed to carry it out. 75% of your body's solid part is protein. Most mainstream diets today focus on increased protein and decreased carbohydrates. Shakes and Powders have been the trend. But there are problems with these forms of proteins. They can contain carbs, lactose, and even fat. They can be messy and time consuming. It can be difficult to mix your shakes at work, or when traveling.

NuVerus Lean solves the problem. NuVerus Lean is pure protein in pure liquid form. Lean is a complete protein containing 15 grams of protein, with both essential and non-essential amino acids. NuVerus Lean goes with you wherever you go. Lean also provides beneficial Black Seed and Curcumin as well as added vitamins and minerals.

Mix bottle of 1/2 Lean with 1/2 bottle of Pure 8 in ounces of water for a delicious and refreshing beverage!

Lean Benefits:

- 15 grams of Proprietary Protein Blend in every bottle
- A Complete Source of Protein containing Amino Acids (Essential & Non-Essential)
- An Easy to Digest Protein Source when taken with Pure
- No Carbs, Lactose, or Fat
- Black Seed and Curcumin, Super Nutrients to make your diet work better.
- Additional essential Vitamins and Minerals

NuVerus Pure

Adding fiber to your diet has many health benefits. It adds bulk to your digestive system, supporting more effective and faster digestive elimination times. Better digestion and elimination leads to a more effective weight loss program. NuVerus Pure uses soluble fiber. Soluble fiber has the benefit of promoting more effective elimination, and is also absorbed by the body to provide additional health benefits including assisting the body to maintain healthy glucose, serum cholesterol and triglyceride levels.

NuVerus uses Larch Arabinogalactan in Pure

Larch is a unique soluble fiber that has numerous benefits. Larch is actively fermented in the lower digestive tract. It is this fermentation process that enables Larch to increase the amount of beneficial anaerobes, and short-chain fatty acids, as well as increasing Bifidobacteria and Lactobacillus. Lactobacillus and Bifidobacteria have been shown in many studies to provide health benefits. These probiotics can improve digestion, stimulate better elimination, suppress unhealthy bacteria, and stimulate the immune system all of which leads to more effective weight loss and a healthier body.

Mix bottle of 1/2 Pure with 1/2 bottle of Lean in 8 ounces of water for a delicious and refreshing beverage!

Pure Benefits:

- Liquid Soluble Fiber to assist in digestion and elimination
- The Fiber in Pure also helps the body to maintain healthy glucose, serum cholesterol and triglyceride levels
- Larch Arabinogalactan helps promote healthy intestinal bacteria.
- Black Seed and Curcumin, Super Nutrients to make your diet work better.
- Additional essential Vitamins and Minerals.

NuVerus Trim

NuVerus Trim utilizes a new formulation of SuperFoods to create a new approach to water. Trim is simple to use, just add a few drops to your water for a delicious, refreshing, health benefiting beverage. Trim contains Black Seed, Black Currant, Green Tea, and Cayenne Pepper. These Super Foods will assist in appetite suppression, energy, and an overall boost to your weight management program. Trim is the first water enhancement product to contain these beneficial SuperFoods.

Water is essential to everyone; unfortunately very few of us drink enough of it. Lack of water in the diet can add to weight management problems. Compounding the problem is our overconsumption of high calorie or empty calorie beverages. The average individual drinks about 450 calories daily. When you add Trim to your water, with a natural sweetener, you get a delicious and refreshing, no carbs, no calorie beverage. Using Trim to naturally flavor your water is a smart healthy choice.

Trim Benefits

- When you enjoy drinking water with Trim, you will naturally consume more water, which will enhance your weight management program and your health.
- No carbs and no calories means this beverage is great for reducing caloric intake.
- Using natural sweeteners does not increase blood sugar levels and makes water with Trim taste great.
- Black Seed, Black Currant, Green Tea & Cayenne - Super Nutrients to make your diet work better.
